

# PANTHEON FOR EDU

One dashboard for all your sites

Lightning fast hosting

Powerful caching and automatic load balancing

Role-based permissions

Cloud development environments for all your sites

One click core updates for Drupal and WordPress

Site management and tagging tools

Automated DevOps

Centralized control and management

## What is Pantheon for EDU?

Pantheon for EDU is the best platform for educational institutions to manage and host all their Drupal and WordPress sites with centralized control and easy management. Pantheon for EDU offers schools a complete website management solution, uniquely suited to their needs. Best of all, it's free!

## Who Is It for?

Pantheon for EDU is designed especially for central IT teams, communications teams, and website developers working for educational institutions.

## Centralize Control

Manage all your school's Drupal and WordPress sites and control access from one consistent dashboard. Site management and tagging tools keep people and projects organized. With Pantheon for EDU, central services departments, like IT or communications, can provide robust and secure website solutions to all their constituents. At the same time, independent groups—grant-funded initiatives, individual schools, departments, or offices—can run their own projects on the same common platform.

## A Solution for All Use Cases

From simple template-based sites to unique high profile projects, Pantheon for EDU lets schools run many sites with different needs on a single, scalable platform, with a predictable cost model that makes sense.

## Work Smarter

Collaborate easily with team members on or off campus with tools like Multidev, which lets users create cloud development environments with the click of a button. Efficiently update CMS versions, plugins, and modules with one-click updates.

## The Fastest Hosting on the Planet

Every aspect of Pantheon is optimized and tuned to deliver the best possible performance for your websites. From advanced caching with Varnish and Redis, to our highly tuned stacked, to our top of the line hardware, Pantheon is built for speed. We consistently outperform the competition in performance benchmarks.

## Free for EDU's

Pantheon for EDU is free for employees of educational institutions with a .edu domain. Simply sign up for an account at [pantheon.io/edu](https://pantheon.io/edu) and get immediate access to the platform. Spend as much time developing sites as you need. Pay with a credit card when you're ready to take a site live.

## Leverage Pantheon's partner network

Pantheon's extensive network of agency partners includes a select number of EDU Specialists who have expertise in delivering great web experiences for clients in the education space. Pantheon Partner EDU Specialists include:
